-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action. All objections and rejections not reiterated below are hereby withdrawn. Claims 1- 21 are pending.

Claim Rejections - 35 USC § 112

Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 21 recite a step of “defining a reference point of a structure mask”. As argued by applicant in the response filed 2/4/04, a structure mask may be interpreted to be a processed version or “mask” comprising a particular structure in a cell, and the instant specification teaches how to define a reference point RELATIVE TO a defined structure or processed version of a cell structure image. The rejections set forth in the previous office action arose due to a different interpretation of what applicant intended by defining a reference point “of” a structure mask, as opposed to defining a reference point “relative to” a structure or structure mask. As applicant apparently intends the disputed step to be one of defining a reference point relative to a structure mask, which step is supported and enabled by the instant specification, the rejections made under enablement and written description are hereby withdrawn. However, due to the different possible interpretation and resultant confusion over what is meant by defining a structure point “of” a structure mask, the claims are still indefinite, and the rejection of the claims due to recitation of this phrase is maintained. This rejection may

be overcome by changing the phrase "reference point of" to --reference point relative to--
- in each claim.

Conclusion

Claims 1-21 are again rejected.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
